If you are a spa, your direct benefits translate in increased revenue through sales of treatments and day spa access.

These are easy and instant sales, made both in advance and last minute, at full or discounted rates.

If you are a cosmetics brand, you increase brand loyalty by helping the users find treatments by your brand at one of the partner spas.

Who is the iSpa target user?

iSpa is accessible to anyone who wants to book a spa treatment instantly, however we have identified three main target categories :

1. Travelers lodging in upscale and luxury non-hotel accommodation (i.e. Airbnb, Luxury Retreats, Onefinestay) who do not have a spa available at their accommodation
2. Business travellers lodging in business hotels that don't have a spa
3. Locals who are regular or occasional spa goers

Where is iSpa available?
